

Coleman  
**Instant Up 10P Lighted  
 Northstar Darkroom Tent**

**\$699.00**

### Details

If you love getting outdoors, but you're not a fan of getting up early - you can hit the snooze button and sleep through the bright morning glare thanks to this tent from Coleman. The Instant Up 10P Lighted Northstar Dark Room has a unique coating on the fly which blocks out 95% of sunlight while reducing the heat inside by up to 5°. You can set up the inner in just 3 minutes no matter how frazzled you are, as the Instant Northstar has an instant-up frame - so it's ready to go straight out of the bag. Then you can just chuck on the fly, peg it out and you're good to go. For illumination at the flick of a switch, the interior has silicone flexible strip LED lighting which is super convenient. Bonding with the family is important, but you still need some privacy to keep your sanity. This tent features 3 rooms separated by zippered mesh and privacy doors - so you can spend time together and have some personal space. You'll never lose your gear amongst the jumble, as there are storage pockets on the sides of the tent to keep your essentials organised. The circle ventilation will help keep you cool in warm conditions and the welded floors and inverted seams will protect you from moisture. Best of all, even during daylight savings, you can get the kids to bed early thanks to the dark interior - making the Instant Up 10P Lighted Northstar Dark Room the ultimate tent for family adventures.

The coating on fly blocks out 95% of light and reduces heat by up to 5°
