

MPOWERD Luci Solar String Lights

\$59.90

Details

Add some practical and ambient warm lighting your indoor or outdoor space with the Luci Solar String Lights from MPOWERD. This unit has 10 LED nodes with two dual directional LEDs in each node which illuminate your space with a warm glow wherever you hang them up. These lights can be charged via the power of the sun, or a traditional outlet for convenience whether you're off the grid or at home. The USB port can give your mobile phone a boost of charge if you're away from other power sources, and there are low, medium and high mode options for different applications. These string lights feature a braided 18ft nylon cord, with two unique clips for making hanging up a breeze. Set up the Luci Solar String Lights from MPOWERD for an illuminated ambience in your backyard, indoors or at the campsite. One USB port to give your mobile device an extra boost of energy. Can be charged by a USB or via the solar panel 2 dual-directional LEDs in each node (20 total LEDs) 5.5m/18ft nylon braided cord 2 uniquely designed clips for hanging
