Details

Providing a level sleep surface right to the very edge, the Exped MegaMat Lite 12 LXW is for the campers who pack light and cars that pack tight!

The soft polyester top fabric is both insulative and pleasant on the skin, coating a 3D construction that provides a substantial sleeping surface. Its compact packed size contradicts its sufficient 12cm height; your no-fuss, on-the-move mattress for camping in the clouds. An extra-large FlatValve allows fast deflation, while the included Schnozzel Pumpbag offers easy inflation and dual use as a waterproof packsack for a sleeping bag, clothes, or other getaway gear. Backed by a 5-year warranty too, this mat is made for lightweight hikers, pared-back bikers, and organised kayakers!

The MegaMat Lite 12 LXW from Exped offers a balance of plush comfort and compact construction.
